

DVD SelectNet™

DVD SelectNet™ provides a networked solution for managing content and producing authored DVDs in only minutes.

DVD Authoring & Delivery
Automated!

DVD SelectNet™ features include:

- ☉ **Integrated Asset Management** — Centralize and share digital assets with searchable metadata
- ☉ **XML Interactivity** — Enables integration with external asset management systems
- ☉ **Fast and Fully Automated** — DVD authoring, delivery and notification
- ☉ **Hybrid Technology** — Allows writing of any file type to disc

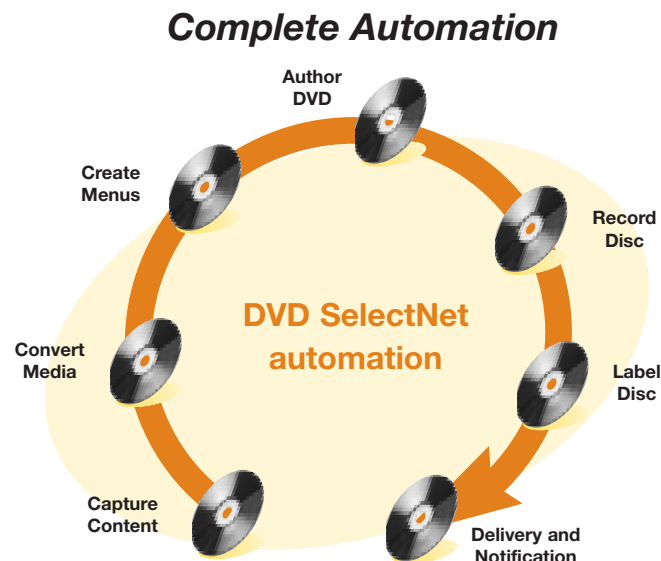

DVD SelectNet™

DVD SelectNet™ provides an organization with the ability to manage its media and author high quality DVDs quickly, easily and automatically.

Via the patent pending process, users have the option to record directly to the internal drive or output to a networked robotic DVD recorder, providing unmatched flexibility.

DVD SelectNet Features:

- Automated DVD authoring and delivery
- Create custom DVD menus and label templates
- Unique “hierarchical menus” streamline DVDs
- Hybrid technology allows writing any attachment to disc
- Full transcoding (and encoding, with optional hardware board)
- Support for multiple source file formats
- Multiple disc playback options include: single clip, loop disc and more
- Supports multiple users concurrently
- Users access via standard web browser (Windows or Mac)
- Includes Digital Asset Management system
- XML enables integration with external DAM system

DVD SelectNet is ideal for:

- Fortune 1000 Companies
- Marketing and HR Departments
- Advertising Agencies
- Government Agencies
- Medical Facilities
- Training Facilities
- Schools and Colleges
- Professional Sports Teams
- Stock Footage Companies
